It's not too late to get your flu shot! In response to the increase in influenza hospitalizations and emergency room visits, the Mahoning County District Board of Health is holding an additional flu shot clinic tomorrow, January 6, 2017. No appointment is necessary.

The CDC recommends that everyone over 6 months old should get an influenza vaccine. Most private insurances are accepted. Please remember to bring your insurance cards, driver's license, Medicare, and Medicaid cards so the cost of the vaccine can be billed. The nasal spray influenza vaccine will not be available this year.

Flu shots are free with most insurances!

The available flu vaccines and their costs are:

- Quadrivalent (4 flu virus strains) \$40.00
- Quadrivalent (4 flu virus strains) short needle intra-dermal \$40.00
- High dose trivalent (3 flu virus strains) for ages 65 and older \$55.00
