## Mahoning County District Board of Health will be conducting a Project DAWN Community Training and Naloxone Distribution Event

The Mahoning County District Board of Health will be conducting a Project DAWN Community Training and Naloxone Distribution event. The free event will take place:

**Thursday, February 28, 2019**  
**5:30 pm to 6:30 PM**  
**Boardman Township Government Center, Meeting Room**  
**8299 Market Street, Boardman, OH 44512**

**No pre-registration required; kits provided to the first 30 participants**

Project DAWN (Deaths Avoided With Naloxone) is a community based drug overdose education and naloxone distribution program. Project DAWN provides free take-home naloxone kits to the public. Naloxone is a medication that can block the effects of opioids. Naloxone can reverse an overdose from an opioid and save a life if given in time!

The training is for community members who may be in contact with someone using an opioid that is at risk of an overdose.

Opioids are a group of drugs that includes prescription pain medications such as morphine, methadone, codeine, hydrocodone, hydromorphone, oxycodone, and buprenorphine. Vicodin®, Lortab®, Percocet®, OxyContin®, Dilaudid®, and Demerol® are common brand names of opioids. Heroin is also an opioid. Fentanyl is an opioid prescription medication that is often manufactured illegally and mixed with heroin or other street drugs.

The Mental Health and Recovery Board will also speak on caregiver support and treatment options. Participants will receive a Project DAWN kit and training on the following.

- Identifying risk factors for opioid overdose
- Recognizing an overdose
- Calling emergency medical services
- Giving intranasal naloxone
- Monitoring the person until help arrives

50 Westchester Drive, Youngstown, Ohio 44515
